

A MESSAGE FROM FOUNDER AND CEO JACK BONNER REGARDING HEADLINES ABOUT THE USE OF GRASSROOTS ADVOCACY

We at Bonner & Associates welcome the opportunity to provide the House Select Committee on Energy Independence and the public with the facts involving the unauthorized letters created by a rogue temporary employee who acted maliciously and entirely on his own without our knowledge.

It's important to note that Bonner & Associates first discovered this fraud and brought it to light ourselves. To ensure that this kind of incident never happens again, we also took immediate steps to enhance our oversight of operations, including implementation of our five-point Quality Standards program that each full-time and temporary Bonner & Associates worker must sign and adhere to as a condition of employment.

Bonner & Associates is proud of its 25-year record of providing a voice for individuals and organizations who desire to be heard as part of the legislative and regulatory process. The opportunity for citizens to express their views to their elected officials is far too precious and too vital to the proper function of our government for it to be threatened by the irresponsible unauthorized actions of a temporary employee.
